Paper - 201	Real Analysis	19
Paper – 202	Topology	10
Paper – 203	Operation Research - I	10
Paper - 204	Graph Theory - II	11
Paper - 205	Programming in C	11

SEMESTER - III

Paper - 301	Complex Analysis	12
Paper - 302	Programming in C++ - I	12
Paper - 303	Functional Analysis - I	13
Paper - 304	Operation Research - II	13
Paper - 305	Practical	14

SEMESTER - IV

Paper - 401	Operator Theory	14
Paper - 402	Functional Analysis - II	15
Paper - 403	Programming in C++ - II	15
Paper - 404	Number Theory	16
Paper - 405	Practical/Project	16

P. G. SEMESTER EXAMINATION REGULATIONS

CHAPTER – I

REGULATION OF GENERAL ACADEMIC MATTERS

1.1 The Departments shall follow Semester System of teaching and Examination based on continuous evaluation internally as well as externally subject to moderation of question papers. The system of evaluations of the students shall be based on Course Credit System.

1.1.1 Academic Year

The Academic Year of the department shall ordinarily be from JUNE to MAY. It may however, be modified by the Staff Council from time to time.

1.1.2 Semester

The academic year shall have two semesters, each of which shall be of 6 months duration.

1.2 Minimum working days in a Semester

A Semester shall have a minimum of 90 working/instructional days excluding examination days/Sundays/Holidays etc. The minimum number of classes in a semester shall not fall short of the number of classes as mentioned below.

1. One Credit hour courses = 10 classes minimum
2. Two Credit hour courses = 20 classes minimum
3. Three Credit hour courses = 30 classes minimum
4. Four Credit hour courses = 40 classes minimum
5. Five Credit hour courses = 50 classes minimum

1.3 Credit hours

One credit shall signify the quantum of teaching imparted corresponding to one hour of theory class and two hours of laboratory/project work and two hours of seminar per week during a semester in respect of a particular course. Each teaching hour of theory class will be of 60 minutes and practical classes/project work will be of 120 minutes duration and seminar will be of 120 minutes duration. For field study outside headquarters, one working day will be considered as two teaching hours. However, the field study should not exceed 30 days (including Sundays) in one semester.

The P. G. Syllabus may be so designed that the total of credit hours for all four semesters shall be 80 spread equally over all semesters as far as practicable, tutorials and proctorials shall be treated as non-credit components.

1.4 Course

A course is a Unit of instruction under any discipline carrying a specific number of credit hours describing its weightage. Those courses, which a student must take as compulsory requirement, are called Core Courses. Those courses, which a student opts out of a list of specialized courses offered by the department, are called Elective Courses.

Choice Based Credit System (CBCS) is introduced at the P. G. Semester-I level uniformly in all the subjects to be taught in paper-103. The students of P. G. Arts stream can not opt for the CBCS course of Science stream. The details of the CBCS courses offered by different P. G. Departments are given in Annexure-II.

SEMESTER SYSTEM OF P. G. MATHEMATICS

ANNEXURE-II

CBCS: P. G. Paper-103

<u>Department</u>	<u>Name of the CBCS Course</u>
Botany	Plant in Human Welfare
Chemistry	Polymer Science
Commerce	Fundamental of Business Organization and Entrepreneurship Development
Economics	Indian Economy
Education	Pedagogical Trends and Issue
English	Global English
Geography	Introduction to Geography
History	Tourism & Heritage Management
Mathematics	Elements of Computer Programming
Odia	“Adhunika Odia Nataka o Odia Bhashara Dhwanitatwa” (Modern Odia Drama and Odia Phonetics)
Physics	Foundation in Physics
Philosophy	Practical Ethics
Political Science	Indian Government & Politics
Psychology	Fundamentals of Psychology
Sanskrit	Ancient Indian Culture
Zoology	Animal World, Human Health & Economic Zoology

1.4.1 *Grade*

The grade awarded to a student in any particular course shall be based on his/her performance in all the tests conducted during a semester and shall be awarded at the end of the semester. The grade in each course is expressed in numerical value in 10.00 scale. The marks of a student shall be converted to 10.00 scale and the points scored thereby shall be called the “Grade Point” in the course. Respective “Grade Point Average” (GPA) and “Overall Grade Point Average” (OGPA) shall be awarded at the end of each semester and all semester respectively. A 3.0 Grade Point is required for passing in individual paper and 4.0 GPA to pass any semester examination. The G. P. shall be rounded to one decimal point and GPA to two decimal points.

1.4.2 *Grade Point Average (G.P.A.)*

Grade Point Average (G.P.A.) of a semester shall be calculated as:

$$\text{GPA} = \frac{\text{Summation of } \{(\text{Credits in each course}) \times (\text{Grade point in that course})\}}{\text{Total No. of Credits in that Semester}}$$

Where the summation is taken over all courses in a given semester, G.P.A. shall be rounded up to 2 decimal points.

1.4.3 *O.G.P.A. (Overall Grade Point Average)*

It is the average of accumulated grade points of a student, worked out by dividing the cumulative total of grade points by the cumulative total of credit hours of all the courses covered and completed by a student during all the Semesters. For the first semester of the programme the GPA and OGPA shall be the same.

$$\text{OGPA} = \frac{\text{Summation of } \{(\text{Credits in each semester}) \times (\text{Total Credits in that semester})\}}{\text{Total No. of Credits in that Semester}}$$

Where the summation is taken over all semesters in a given programme. OGPA shall be rounded up to 2 decimal points. For merit lists, in case of equality, the OGPA shall be calculated beyond two decimal places if necessary.

SEMESTER SYSTEM OF P. G. MATHEMATICS

1.4.4 Conversion of grades to marks and classification of results under course credit system

The OGPA can be converted to percentage of marks in the following manner:

Percentage of Marks = (OGPA) × 10

A student after successful completion of all the semesters, Degree shall be awarded in the following manner:

O.G.P.A. \geq 6.0 : FIRST CLASS

O.G.P.A. \geq 5.0 - < 6.0 : SECOND CLASS

O.G.P.A. 4.0 - < 5.0 : THIRD CLASS

O.G.P.A. < 4.0 : FAIL

1.5 Academic Calendar

The Examination Section and the academic section shall finalise the schedule of semester registration and other academic activities at the start of academic session. The Academic Calendar shall be prepared by the Academic Committee of the University in consultation with examination section.

The broad format for academic calendar for P. G. with regard to admission, registration and commencement of classes shall be as follows:

Admission and Registration and

Commencement of Classes for 1st Semester	JULY
1 st Semester Examination	DECEMBER
Commencement of Classes 2 nd Semester	JANUARY-MAY
2 nd Semester Examination	JUNE
Commencement of 3 rd Semester Classes	JULY-NOVEMBER
3 rd Semester Examination	DECEMBER
Commencement of 4 th Semester Classes	JANUARY-APRIL
4 th Semester Examination	APRIL & MAY
Final Results to be published in the month of	JUNE

1.5.1 Requirement of award of degree

The minimum credit hour requirement for the Master Degree shall be 80 (eighty) credits and the residence required for Master Degree shall be continuous four semesters from the first date of registration and the maximum time allowed to complete the Master Degree shall be 8 (eight) semesters.

1.6 Requirement for attendance

A candidate shall be required to attend 75% lectures, tutorials and practical classes separately during the semester (For late admitted students' attendance to be calculated from the date of admission). Condonation may be granted by the staff council only to the extent of 15% in exceptional cases. (Illness, accident, mishap in the family, deputation by University/Department). When a candidate has been deputed by the University to represent the University/state for any activity, the lectures delivered during his/her absence for the purpose shall not be counted towards the calculation of attendance provided the student submits a certificate to that effect from the appropriate authority.

1.7 Registration in a semester

A student has to register his/her name at the beginning of every semester in the prescribed form, for the course he/she wants to take in that semester. Examination Section (General) shall notify the registration dates and the list of registered students for the semester shall be given to the Head of the Department within two weeks of the commencement of the Semester.

SEMESTER SYSTEM OF P. G. MATHEMATICS

CHAPTER – II REGULATIONS ON EXAMINATION MATTERS

2.1 *Mid Term Examination*

In each Semester there shall be one Mid Term Assessment examination of 60 minutes duration. The Mid Term examination shall be conducted by COE like that of End Term examination. The answer scripts shall be evaluated by the external and internal examiners and the marks along with answer scripts shall be retained in COE.

2.2 *Semester Examination*

After the end of each semester there shall be an examination of each theory paper of 2 hours duration and of each practical paper of 4 hours duration, which shall be called Term End / “Semester Examination”. The maximum marks for each theory paper shall be 50 out of which 40 marks for term end and 10 marks for Mid Term. The maximum marks for each practical/ semester/ project/ dissertation/ review examination shall be 50 for Arts and Commerce and 100 marks for Science. The classes shall remain suspended ten days (including Sundays and holidays, if any) before the date of commencement of semester test for preparation by the students.

2.3 *Results of Examinations*

The results shall be declared ordinarily within four weeks of completion of the examinations. A student who seeks re-addition of his/her marks in a course shall be allowed to do so by submitting an application to Registrar along with a required fee in the fee counter of the University. All such cases/complaints if any shall be disposed of by the Examination Section in a prefixed day and necessary corrections if any shall be reflected in the mark/grade sheet. The candidates shall have to appear in all the Units of a semester examination to be eligible to be a declared ‘pass’ provided he/she secures minimum pass marks/grade.

2.4 *Promotion to the next semester*

A student shall be admitted to the next semester only when he/she appears in all the papers of the concerned semester examination. However, a student failing to appear semester examination in some or of all papers due to some reasons as mentioned in 2.5 may be admitted to the next semester. Such a student shall produce sufficient proof in favour of his/her reason for not being able to appear in some or all papers of the Semester Examination on the next academic session in the corresponding semesters.

2.5 *Absence from Examination*

If a student is unable to appear a semester examination in some or all papers the Registrar shall consider his/her case for admission into the next higher semester only the following cases:

- (a) When he/she is hospitalized.
- (b) When he/she is not able to appear in the examination due to serious illness or death of parents, brothers, sisters, spouse or children.
- (c) When he/she met an accident of serious nature.
- (d) When the department/University or any official directive deposes him/her

2.6 *Procedure for Repeat/Improvement*

A student who wants to sit for the semester examination of first and/or second semester in the subsequent academic session (for repeat or improvement) he/she shall have to apply to the Registrar in plain paper before fifteen days of the commencement of the said examination. If allowed by the Registrar, he/she shall deposit the required fees for each paper with centre charge and produce the proof to the teacher in-charge examination with permission letter from the Registrar.

In a semester to appear improvement examination the candidates must have passed the semester examination. A candidate can appear repeat examination of papers in which he/she has failed or not appeared for reasons mentioned in 2.5.

SEMESTER SYSTEM OF P. G. MATHEMATICS

The Master Degree student seeking to appear/improvement examination in any course(s) shall get 3 chances for 1st and 2nd semester within 8 semesters.

Candidates appearing in repeat/improvement examination shall not be considered in the merit list and it shall be reflected in the Provisional Certificate cum Mark sheet (PCM) but not in the final degree certificate.

2.7 *Award of Degree Certificate, Grade/Mark sheet*

A Degree certificate under the official seal of the university and signed by the Vice-Chancellor shall be presented at the Convocation or in absentia to each of the successful students of particular degree. The Controller of Examinations shall issue the mark/grade sheet of each semester to the candidates in the sheet of each semester to the candidates in the prescribed format by depositing the required fees for marks/Grade Sheet to be deposited in the University counter.

2.8 *Guideline for filling up of Forms for PG Classes (IMP/ Repeat)*

A student shall repeat all the theory and practical papers in which he/she failed in the semester examination within a period of eight semesters from the date of first registration. Such students shall have to apply to the Head of the Department/Registrar in plain paper during the filling up of form for the ensuing semester examination. If allowed, he/she shall deposit the fees as prescribed by the University

If a candidate secures less than 3.0 Grade point in a paper(s) and less than 4.0 Grade point average in a Semester examination he/she has to appear all the papers in that Semester.

If a candidate secures less than 3.0 Grade Point in a paper(s) and a minimum 4.0 Grade point average in a semester examination, he/she has to appear only the paper(s) in which he/she secured less than 3.0 Grade point.

A candidate is eligible to sit for improvement in a paper(s) only when he/she has passed the semester examination concerned. Further, he/she can improve in a maximum of EIGHT paper(s) in the entire course. The Master Degree students seeking to take improvement examination in any course(s) shall get chances within 8 semesters from the year of admission to the course. The candidates taking this advantage (improvement) will be examined on the basis of current syllabus and the higher marks shall be retained during computation of result.

2.9 If a candidate fails to appear in any paper of the said examination and marked ABSENT his/her results will be declared only when he/she clears that paper/those papers.

2.10 *Disciplines in the Examination*

(A) Late Comers: A student arriving in the examination hall/room fifteen minutes after the commencement of the examination shall not be ordinarily allowed to sit for the examination. No examinee shall be allowed to go out of the examination hall within one hour of commencement of examination. The invigilators shall keep a record of temporary absence of students from the examination hall/room during the examination.

(B) Adoption of unfair means in the Examination:

Possession of unauthorized materials and using it, copying from scripts of other students or from any other source, showing his/her answer script to others during the examination, creating disturbance or acting in a manner so as to cause inconvenience to other students in the examination hall or near about shall be treated as adoption of unfair means or malpractice.

**Sd/-
REGISTRAR**

SEMESTER SYSTEM OF P. G. MATHEMATICS

P. G. Mathematics Science/ Arts w. e. f. 2008 - 09 Session

Paper	Subject	Mark	Credit
SEMESTER - I			
Paper – 101	Algebra	50 (40+10)	04
Paper - 102	Mathematical Method	50 (40+10)	04
Paper - 103	Elements of Computer Programming (CBCS)	50 (40+10)	04
Paper - 104	Partial Differential Equation	50 (40+10)	04
Paper - 105	Graph Theory	50 (40+10)	04
	Total	250	20
SEMESTER - II			
Paper - 201	Real Analysis	50 (40+10)	04
Paper – 202	Topology	50 (40+10)	04
Paper – 203	Operation Research - I	50 (40+10)	04
Paper - 204	Graph Theory - II	50 (40+10)	04
Paper - 205	Programming in C	50 (40+10)	04
		250	20
SEMESTER - III			
Paper - 301	Complex Analysis	50 (40+10)	04
Paper - 302	Programming in C++ - I	50 (40+10)	04
Paper - 303	Functional Analysis - I	50 (40+10)	04
Paper - 304	Operation Research - II	50 (40+10)	04
Paper - 305	Practical	50 (40+10)	04
		250	20
SEMESTER - IV			
Paper - 401	Operator Theory	50 (40+10)	04
Paper - 402	Functional Analysis - II	50 (40+10)	04
Paper - 403	Programming in C++ - II	50 (40+10)	04
Paper - 404	Number Theory	50 (40+10)	04
Paper - 405	Practical/Project	50 (40+10)	04
		250	20
	Total	1000	80

There will be an Internal Assessment Examination of 5 marks of 30 minutes duration and an assignment of 5 marks in all theory paper.

SEMESTER SYSTEM OF P. G. MATHEMATICS

SEMESTER – I

Paper - 101: ALGEBRA

Full Marks 50 (10 Mid Term + 40 End Term)

Unit - I

Ideals and Quotient rings, The Field of Quotients of an Integral Domain, Euclidean rings.

Unit - II

Polynomial Rings, Roots of Polynomials over the Rational Field, Polynomial Rings, Over Commutative Rings.

Unit - III

Fields, Extension Fields. Roots of Polynomials, More about Roots. The Elements of Galois Theory. Solvability by Radicals.

Book Prescribed:

Topics in Algebra: I. N. Herstein, Chapter- 3 (Sec. 4 to 11), 5 (5.1, 5.3, 5.5, 5.6 and 5.7 only).

Paper - 102: MATHEMATICAL METHOD

Full Marks 50 (10 Mid Term + 40 End Term)

Unit - I

Laplace Transforms.

Unit - II

Fourier Series and Integrals.

Unit - III

Calculus of Variation: Variation & its Properties, Euler equation.

Books Prescribed:

1. Advanced Engineering Mathematics: Erwin Kreyszig Wiley, Eastern Ltd., 5th edition, Chapters - 5 and 10.
2. Calculus of Variations with Application: A. S. Gupta, PHI, Chapter – (Art 1, 2 only).

SEMESTER SYSTEM OF P. G. MATHEMATICS

Paper – 103 (CBCS) **ELEMENTS OF COMPUTER PROGRAMMING** **Full Marks 50 (10 Mid Term + 40 End Term)**

Unit - I (2 Credit Hours)

Binary system, Octal and Hexadecimal systems. Conversion to and from Decimal systems. Codes, Bits, Bytes and Words. Memory of a computer, Arithmetic and Logical operations on numbers. Precisions, AND, OR, XOR, NOT and Shift operators, Basic logic gates and Truth Tables.

Unit - II (3 Credit Hours)

Boolean Algebra, Normal Forms, Representation of unsigned integers, Signed integer, Real, Double precisions numbers, Long integers.

Unit - III (3 Credit Hours)

1. Algorithm and Flow chart for solving the following Numerical Analysis problems.
2. Solution of algebraic and transcendental equation of one variable by Bisection, Regula-Falsi and Newton-Raphson methods.
3. Solution of system of linear equations by Gaussian elimination and Gauss-Jordan (direct), Gauss Seidel (iterative) methods.
4. Newton's (forward and backward), Lagrange's interpolation methods.
5. Numerical integration by Trapezoidal rule, Simpson's rules, Gaussian quadrature formula.
6. Numerical solution of ordinary differential equations by Euler and Runge-Kutta methods.

Reference Books:

1. Structured Computer Organization: Andrew S. Tanenbaum (PHI).
2. Computer Oriented Statistical & Numerical Methods: E. Balagurusamy (MacMillan India Limited).
3. Discrete Mathematics: M. K. Gupta (Krishna's).
4. C Language and Numerical Methods: C. Xavier (New Age).
5. Discrete Mathematics – K. Rosen

Paper - 104: PARTIAL DIFFERENTIAL EQUATION **Full Marks 50 (10 Mid Term + 40 End Term)**

Unit - I

Ordinary differential equations in more than two variables.

Unit - II

Partial differential equations of first Order.

SEMESTER SYSTEM OF P. G. MATHEMATICS

Unit - III

Partial differential equations of second order, Laplaces equation.

The course is covered by Elements of Partial Differential equations: I. N. Sneddon,
Mc Graw Hill Kogakusha: I

(section - 1 to 6), II, III, IV (section - 1 to 4).

Paper - 105: GRAPH THEORY - I **Full Marks 50 (10 Mid Term + 40 End Term)**

Unit - I

Introduction, Paths and Circuits, Trees.

Unit - II

Fundamental circuits, Cut sets and Cut Vertices.

Unit - III

Planar and Dual graphs.

Book Prescribed:

Graph Theory with applications to Engg. and Computer Science: N. Deo
(Prentice Hall of India Ltd.), Chapter - I, II, III, IV, V.

Reference Books:

1. Graph Theory: F. Harary.
2. Graph Theory and Application: Bondy and Murty (Mac Millan).

SEMESTER – II

Paper - 201: REAL ANALYSIS **Full Marks 50 (10 Mid Term + 40 End Term)**

Unit - I

Measure on the real line.

Unit - II

Integration of functions of a real variable Differentiation.

Unit - III

Abstract measure space.

Book Prescribed:

Measure theory and Integration: G. De. Barra. Wiley Eastern Ltd.,
Chapter – 1 (1.5 - 1.7), II, III, IV, V.

Reference Books:

1. Real and Abstract Analysis: E. Hewitt and K. Stromberg. Springer International Student Edition, Narosa Publishing House.
2. Real and Complex Analysis: W. Rudin, Tata Mc Graw Hill.

SEMESTER SYSTEM OF P. G. MATHEMATICS

Paper - 202: TOPOLOGY

Full Marks 50 (10 Mid Term + 40 End Term)

Unit - I

Topological Spaces and Continuous Functions.

Unit - II

Connectedness and Compactness.

Unit - III

Countability and Separation Axioms, The Tychonoff Theorem, Complete Metric Space, Compactness on Metric Spaces.

Book Prescribed:

Topology A first Course: J. R. Munkers (Prentice Hall of India Ltd.), Chapter - II (excluding 2.11), III (excluding 3.8), IV (excluding 4.5), V (5.1 only), VII (7.1 and 7.3 only).

Paper - 203: OPERATION RESEARCH - I

Full Marks 50 (10 Mid Term + 40 End Term)

Unit - I

Convex sets and function, Linear Programming.

Unit - II

Duality in Linear Programming, Transportation Problem.

Unit - III

Assignment Problems, Revised Simplex Method.

Book Prescribed:

Operations Research: S. D. Sharma.

Reference Books:

1. Linear Programming and Application: S. I. Gass.
2. Non-Linear Programming: C. Hadley.
3. Operation Research: Kanti Swarup.

Paper - 204: GRAPH THEORY - II

Full Marks 50 (10 Mid Term + 40 End Term)

Unit - I

Vector spaces of graph.

Unit - II

Matrix representation of graphs, Colouring.

Unit - III

Covering and partitioning, Directed graphs.

SEMESTER SYSTEM OF P. G. MATHEMATICS

Book Prescribed:

Graph Theory with applications to Engineering and Computer Science: N. Deo, (Prentice Hall of India Ltd.), Chapter - VI, VII, VIII, IX.

Reference Books:

1. Graph Theory: F. Harary.
2. Graph Theory and Application: Bondy and Murty (Mac Milian).

Paper - 205: PROGRAMMING IN C

Full Marks 50 (10 Mid Term + 40 End Term)

Unit - I

Overview of C, Constants, Variables, Data types, Operators and Expressions, Managing I/O operators.

Unit - II

Decision making and Branching, Looping, Arrays, Character, Strings.

Unit - III

User defined Functions, Structure and Union, Pointers.

Book Prescribed:

Programming in ANSI C: E. Balagurusamy.

Reference Books:

1. Let us C: Y. Kanetkar.
2. Mastering in C: Venugopal.
3. Computer Programming in C: V. Rajaraman.

SEMESTER – III

Paper - 301: COMPLEX ANALYSIS

Full Marks 50 (10 Mid Term + 40 End Term)

Unit - I

Complex numbers: The algebra of complex numbers, the geometric representation of complex numbers.

Complex Functions: Introduction to the concept of analytic functions, elementary theory of power series, exponential and trigonometric function.

Unit - II

Analytical functions a mapping: Conformality, linear transformation, elementary conformal mapping. Complex Integration, fundamental theorems, Cauchy integral formula.

SEMESTER SYSTEM OF P. G. MATHEMATICS

Unit - III

Local properties of analytic functions, the integral forms of Cauchy's Theorem. Cauchy's Residue Theorem, Contour Int.

Books Prescribed:

1. Complex Analysis: L. V. Ahlfros, Mc Graw Hill, Kogakusha Ltd., Chapter - I, II, III (excluding 3.1), IV.
2. Function of one Complex Variable: J. B. Conway Narosa Publisher House, Chapter - 4.

Paper - 302: PROGRAMMING WITH C++ - I **50 Marks (40+10)**

Unit - I

Principles of object oriented programming - Object oriented programming paradigm, Basic concept of OOP, benefits of OOP, applications of OOP. Structure of a C++ program - creating a source file, compiling and linking a C++ program. Tokens, Expression and Control structures - Key words, Identifiers, Data types. User defined data types, Derived data types, Symbolic constant, Variables, Operators in C++.

Unit - II

Function in C++, Function prototyping, Call by reference, Inline function, Default argument, Function overloading. Classes and Objects Defining class and member function.

Unit - III

Structures of a C++ program with class, nesting of member, memory allocation for objects, static data member, static member function, Friend function, pointers to data member.

Book Prescribed:

Object Oriented Programming with C++: E. Balagurusamy, (Chapter 1 to 5).

Reference Books:

1. Object Oriented Programming Turbo C++: Robert Lafore.
2. Mastering in C++: Venugopal.

Paper - 303: FUNCTIONAL ANALYSIS - I **Full Marks 50 (10 Mid Term + 40 End Term)**

Unit - I

Definition and Examples of Metric space, Inequality of Holder and Minkowski, Examples of l_p spaces, Complete Space, Contractions, Completion.

SEMESTER SYSTEM OF P. G. MATHEMATICS

Unit - II

Category, Nowhere Differentiable Continuous Functions, Compactness, Continuity, Uniform continuity, Stoke Weirstrass Theorem, Semicontinuity, Space of Compact Convex Sets.

Unit - III

Vector Space, Subspace. Quotient Space, Basis, Algebraic Dual, Second Dual, Convex Sets, Ordered Groups, Hahn-Banach Theorem.

Book Prescribed:

First Course in Functional Analysis: G. Goffman and G. Pedrick, Prentice Hall of India Pvt. Ltd.

Chapter - I (1-1.3, 1.7-1.13, 1.15,1.16), Chapter - II (2.1 – 2.9).

Reference Books:

Functional Analysis with Application: B. Choudhury and S. Nanda, Wiley Eastern Limited.

Paper - 304: OPERATION RESEARCH - II

Full Marks 50 (10 Mid Term + 40 End Term)

Unit - I

Upper Bounding Technique, Integer Programming Problems, Branch & Bounds. Gomary Method.

Unit - II

Dynamic Programming, Game Theory.

Unit - III

K. T. Conditions, Quadratic Programming.

Book Prescribed:

Operations Research: S.D. Sharma.

Reference Books:

1. Linear Programming: S. I. Gass.
2. Non-Linear and Dynamic Programming: G. Hadley.
3. Operation Research: Kanti Swarup.

Paper - 305 (PRACTICAL)

MARKS - 50

SEMESTER SYSTEM OF P. G. MATHEMATICS

SEMESTER – IV

Paper - 401: OPERATOR THEORY

Full Marks 50 (10 Mid Term + 40 End Term)

Unit - I

Banach Algebra: Introduction, Complex homomorphism, Basic properties of spectra.

Unit - II

Commutative Banach Algebra: Ideals, and homomorphism, Geifand transform, Involution

Unit - III

Bounded operators in a Hilbert Space: Basic facts, Bounded operators, Fuglede-Putnam – Rosenblum Theorem, Resolution of the identity, the Spectral Theorem, Eigen – values of normal operators, Positive operators and square roots

Books Recommended:

1. Functional Analysis – Walter Rudin- Tata Mcgraw Hill {Ch – 10 (10.1 – 10.20), Ch-11 (11.1 – 11.20), Ch-12 (12.1 – 12.36)}

Reference Books:

1. Basic Operator Theory: Gohberg and Goldberg.
2. Principle of Functional Analysis: M. Schecter.
3. Theory of Linear Operator, Vol. I, II, Pitman Publishing House: Akhietzer and Glazeman.
4. Linear Operator, Vol. I, II, III: Donford and Schwarz.
5. Linear Operator on Hilbert Spaces, Springer: Weildman.

Paper - 402: FUNCTIONAL ANALYSIS - II

Full Marks 50 (10 Mid Term + 40 End Term)

Unit - I

Banach Space, Dual Space, Hahn – Banach Theorem in Normed Space, Uniform Bounded Principal, Lemma of F. Riesz, Applications, Application to Compact Transformations.

Unit - II

Second Dual Space, Dual of l_p , Hilbert Space, Projection Theorem, Dual.

Unit - III

Mean Ergodic Theorem, Fourier Expansion, Isoperimetric Theorem. Riesz – Fischer Theorem, Complete Orthogonal Sets.

Book Prescribed:

First Course in Functional Analysis: G. Goffman and G. Pedrick. Printice Hall of India Pvt. Ltd., Chapter - II (2.11-2.15, 2.17, 2.18), Chapter - IV (4.1-4.5, 4.7, 4.10).

Reference Books:

Functional Analysis with Application: B. Choudhury and S. Nanda, Wiley Eastern Limited.

SEMESTER SYSTEM OF P. G. MATHEMATICS

Paper - 403: PROGRAMMING IN C++ - II

Full Marks 50 (10 Mid Term + 40 End Term)

Unit - I

Constructors and destructors – Default constructors and parameterized constructor, copy constructor, dynamic constructor, constructor with default arguments, dynamic initialization of objects, constructors overloading, destructors and its function.

Unit - II

Operator overloading and type conversation - Defining operators overloading, overloading unary and binary operators, overloading binary operators using friend function, manipulation of strings using operators, rule for overloading operators, type conversions.

Unit - III

Inheritance: Extending classes - Defining derived classes, single inheritance, making a private member inheritable, multiple inheritance, Hierarchical inheritance, Hybrid inheritance, Virtual base class, Abstract classes, constructors in derived classes, Nesting of classes. Pointers, Virtual functions and polymorphisms - pointers to objects, this pointer, pointers to derive data classes, virtual functions, pure virtual function.

Book Prescribed:

Object Oriented Programming with C++: E. Balagurusamy, (Chapter 6 to 9).

Reference Books:

1. Object Oriented Programming in Turbo C++: Robert Lafore.
2. Mastering in C++: Venugopal.

Paper - 404: NUMBER THEORY

Full Marks 50 (10 Mid Term + 40 End Term)

Unit - I

Arithmetical function and Dirichlet multiplication, Congruences.

Unit - II

Dirichlet theorem on primes in arithmetic progression, Periodic arithmetical functions.

Unit - III

Gauss sums, Quadratic residues and quadratic reciprocity law.

Book Prescribed:

Introduction to Analytic Number Theory: T. M. Apostol (Springer, International students End) Narosa Publ. House. Chapter - 2, 5 (5.1 - 5.8), 7, 8, 9 (9.1-9.8)

Reference Books:

1. An Introduction to the Theory of Numbers: Hardy and Wright.
2. Introduction to Analytic Number Theory: K. Chandrashekaram.
3. Arithmetical Functions: K. Chandrashekaram.

Paper - 405 (PRACTICAL/PROJECT)

MARKS - 50
