**About the University :** Gangadhar Meher University, Sambalpur came into existence on the 30th May 2015 as a unitary university by the Government of Odisha Order No.11598/HE Dated 30.05.2015] which was erstwhile known as G.M. (Autonomous) college. The University provides teaching and research facilities for running Undergraduate, Post Graduate and Research programs smoothly on various subjects. It has already made a mark in the academic arena by providing good quality education, conducting national and international level seminars.

**About the School :** The School of Education is one of the oldest post graduated department in Gangadhar Meher University which provides BA(Education), MA (Education) & Ph.D in Education along with Integrated BA/B.Sc. B.Ed.. A record number of students are qualifying NET/JRF every year from this School . A good number of students/scholars from this school are serving in different reputed educational institutions within India & abroad .The School of Education organizes national and international seminars, workshops and symposiums in regular basis.

**About the Seminar :** Unity and diversity and multi -culturalism are the unique features of India but the mission of inclusive education is futile without equitable development of tribal in general and educational progress of tribal in particular. From educational perspective it is found that the school enrollment rate is low, dropout rate is high among tribal students. Though academicians have attempted to explain low educational progress of tribal students from socio – cultural, socio economic , political and geographical perspective but lots of problems of tribal students are till date un-explained and un-explored .

Similarly after entry into school setup tribal students face numerous curricular, institutional and ecological problems. In this regards policy framers have primarily attempted to bring equal educational opportunity by focusing on financial based interventions .

The proposed seminar will shade light on various cusses or determinants of low educational progress of tribal students , the area where they face academic problems and the nature and type of intervention which will appropriated and effective for them .
