Overview

Gangadhar Meher University is a public university located in Sambalpur, Odisha. The university was established in 1944. The university is accredited by NAAC with a grade of A. Gangadhar Meher University offers AICTE-certified courses at the UG, PG, and PhD levels in streams like science, business, humanities, English, history, statistics, and zoology. The university was ranked 1001 in the impact category by the Times Higher Education 2025.

The existing website of Gangadhar Meher University can be accessed through <http://www.gmuniversity.ac.in>. The website provides vast amount of information through various sections/departments web pages. The site provides information on history and background of the University. Apart from static information, the website is developed and implemented couple of online applications like recruitment management system for teaching and non teaching vacancies, online admission management system, result publication system and online examination system. Depending the requirements of the University, online applications used to be activated for multiple times in a year.

Vision of the Web Portal for Gangadhar Meher University

Gangadhar Meher University plans to have a dynamic state-of-the-art web portal which would truly reflect and add to the University's vibrant academic environment and campus life. This entails a working blend of Web 3.0 technologies and eye-catching presentation of information. The website should be elegant and uncluttered in look, and user friendly in its layout and content, and will follow Govt. of India guideline for website and online applications. The bidder will also be responsible for migrating all data, including website contents, databases, photographs, and videos, from the existing websites, the authority will provide Cpanel of all the website and online application of existing website.

Terms and Conditions

1. The bidder should be a Company registered in India under the Companies Act 1956/2013.
2. The bidder should have a development office with its own required technical man power in Sambalpur or Odisha for service support 24x7.
3. No Consortium will be allowed. The bidder must meet all the eligibility criteria by itself.
4. The tendered must have service tax registration, income tax assesses and GST registration.
5. The bidder should have continued at least two similar projects for any State/Central Government University. A copy of the work orders should be submitted for necessary verifications.

6. The bidder should have completed at least two online admission system for any State/Central Government University during 2025-26 financial year. A copy of the work orders should be submitted for necessary verifications.
7. The bidder has not been terminated/blacklisted / debarred by any of the Central / State Government Department / Office or by any Public Sector Undertaking (PSUs) and not blacklisted by any authority during the recent past. On the Stamp Paper of Rs.10/- value in shape of affidavit from the Notary regarding non-blacklisting/non terminated.
8. The work shall be completed in all respects within 15 days from the date of issue of work order.
9. The authority reserves the right to accept/reject any part of or all the quotations without assigning any reason thereof.
10. Any bid received after the deadline for submission of bids prescribed, will be rejected.
11. Bids cannot be withdrawn during the interval between its submission of bids and expiry of Bid's validity period.
12. SLA (Service Level Agreement) will be signed with the awarded bidder.
13. **Dispute Resolution and jurisdiction:** Any dispute between the parties arising out of or in relation to the validity, interpretation, implementation or alleged breach of any of the provisions including financial aspect of this agreement during its existence shall be resolved amicably by the parties. In case of failures to resolve the disputes, this may be directed to the jurisdiction of the district court, Sambalpur.

Scope of Work and Deliverables:

The scope of work is broadly classified as follows:

- **Existing website redesigning**
Existing website redesigning as per Indian Government Guidelines (GIGW) requires strict compliance with accessibility standards (WCAG 2.0/2.1), mobile responsiveness, secure hosting (HTTPS/SSL), and, most importantly, the display of the State Emblem/official logo, a bilingual format (English and Hindi), and essential, updated content on all pages. Migration of the Content As is on Website and based on the Content as given.

- **University Result Publication System**

A University Result Publication System is a centralized, web-based platform that automates the management, calculation, and publishing of student academic results. It allows administrators to securely upload marks, generates digital mark sheets/transcripts, and provides students with instant, online access to results via roll numbers.

The portal should accompany a comprehensive content management system to support a variety of users ranging from Administrators to Guests. It should allow the administrator to create user roles and allow the setting up of access rights ranging from entire site to a specific page. Following features should be implemented during template design and CMS development.

- It should provide for flexibility to modify the design when a major event has to be published.
- Design should be flexible to accommodate new pages.
- Design should allow changing the interface templates for fresh new look as and when required.
- The portal should be based on international standards like W3C standard for HTML, WAI etc.
- It should be compatible to various browsers including IE, Mozilla Firefox, Chrome, Opera etc.
- It should provide secure integration with payment gateway for online payment transactions involved in processes such as admission form, job application, student fees, conference registration etc.
- The portal should allow the user to syndicate, aggregate and set up the notification of data using RSS feeds.
- The portal should allow users to share their views, feedback, solutions and suggestions online through feedback form system.
- It should provide a search module for efficient information retrieval.
- The portal should have a direct mailing facility where mails could be sent to different contact persons.
- The website should incorporate necessary security features against hacking and defacement.

- All logins and payments transaction must operate on secure protocols. It should provide support for website security audit.
- The portal should comply fully with the guidelines issued from time to time by the Government of India.
- The portal should be mobile friendly, disabled-friendly, and should allow for features such as voice enabling, enhancement of font size and incorporate magnifier to all the pages.

Design Features to be delivered

1. **Administrative Panel:** The Website needs to have the Administrative Panel with overall management and control of the system.
 - There will be one Super-Admin having the overall control.
 - There will be Type-2 Users, which will be created based on the Different Units. This Unit Users should have flexibility to Upload and Manage their Unit Webpages.
 - There will be Type-3 Users which will be primarily all Teaching employees i.e. Faculty who will be able to Upload, and Manage their individual Webpages.
2. **Web Content Management System:** We would like to have an easy-to-use web content management system (WCMS) for our website, which can be maintained effortlessly and can be learnt easily by users. All the pages including home page must be editable by identified internal users. The content management system should provide an easy User Interface functionality to create event photo gallery, video gallery and it should have Menu Management i.e. Ability to add, move, delete, modify menus on the site.
3. **Technology:** The new website should use the latest standards of Web 3.0 based tools and open source software(s) and services available. Following are the advised open-source technologies to be used:
 - Server-Side Scripting PHP.
 - Content Management System: Open Source CMS with Customized Theme
 - Server-Side Database: MySQL
 - Operating System Platform for hosting: Linux/Windows
 - Hosting: On AWS Cloud Service. Space requirements for both University Website and University Reporting System to be estimated by the Vendor.
 - Any Other Add-On Feature: Only open-source tools will be preferred
 - Multilingual support: It should provide Multi-lingual language support.
 - Logs and security features at all levels i. Cron jobs where necessary

4. **Web Content Accessibility:** Website should follow Web Content Accessibility Guidelines (WCAG) as per GoI guidelines (GIGW), refer <http://guidelines.gov.in/> and certified by the Standardization Testing and Quality Certification (STQC), refer <http://meity.gov.in>, can be social media enabled
5. **Website Security and Updates:** The website should allow secured socket layer. The website shall be security audited through CERT-In empanelled agencies as per cyber law. The Vendor needs to take care of all security, malware attacks, routine updates of plugins, routine backups etc.
6. **Deployment and Hosting:** Vendor shall deploy the website on AWS Cloud Service and shall ensure Go-Live readiness in all aspects. The website should be a multisite website hosted on VPS cloud. Also, the website should be scalable as and when notified. The web hosting server should configure as follows.
 - Managed VPS
 - 12 vCPU core
 - 24 GB RAM
 - 500 GB SSD NVMe
 - 12 TB bandwidth
 - Full root access
 - 1 Dedicated IP
 - 1 Gbps network
 - Control Panel: Cpanel
7. **Storage and Backup:** The storage and backup service should automatically happen. The turnaround time for the website to be live should minimum within 24 hours. Data concurrency and redundancy management should be done.
8. **Maintenance and Support Services:**
 - The Vendor has to maintain the website and offer support services with respect to Technical Challenges/Change overs when so ever as required by the University.
 - The Vendor has to station his Website designer/ developer in the University until any gaps in the website is fully addressed.
